Laboratory Modules

Functional solutions for laboratory environments

Our laboratory module solutions are designed to support organized, practical and professional laboratory environments. Whether you are setting up a new laboratory or improving an existing workspace, we can help you explore suitable laboratory solutions based on your requirements.

PRODUCT RANGE

01

Continuous Lab Modules

02

Shimadzu UV-1900i Plus Spectrophotometer

03

Moisture Balance

TYPICAL APPLICATIONS

- Laboratories
- Educational institutions
- Industrial laboratories
- Testing environments
- Research facilities

Industrial Furniture

Practical and durable furniture solutions suitable for industrial workplaces, work areas and operational environments.

PRACTICAL FURNITURE FOR INDUSTRIAL WORKSPACES

Industrial environments require furniture that supports everyday operations, organization and productivity.

We provide industrial furniture solutions for different workplace and operational requirements.

TYPICAL APPLICATIONS

Factories

Workshops

Production areas

Industrial workspaces

Warehouses

Office Furniture

Professional furniture solutions for productive, organized and comfortable office spaces.

PROFESSIONAL FURNITURE FOR MODERN WORKSPACES

Create organized and professional office environments with suitable office furniture solutions.

Our office furniture range can support different workplace requirements, from individual work areas to broader office setups.

TYPICAL APPLICATIONS

Corporate offices

Commercial offices

Workspaces

Administrative areas

Safety Items

Essential safety products to support safer workplace environments and operational requirements.

SUPPORTING SAFER WORKPLACE ENVIRONMENTS

Workplace safety is an essential part of every industrial and commercial environment.

We provide safety-related products to support different workplace and operational requirements.

Our safety product range can be selected according to the specific application and environment.

KEY POINTS

-  Essential safety products
-  Supports safer workplace environments
-  Suitable for industrial and commercial use
-  Selected based on specific application and environment

PVC Strip Curtains

PVC strip solutions for controlled access, separation of areas and workplace or facility applications.

FLEXIBLE SEPARATION & ACCESS SOLUTIONS

PVC strip curtains provide a practical solution for separating areas while maintaining convenient movement and access.

They can be suitable for different industrial, commercial and facility applications.

Our PVC strip solutions help in creating defined areas with easy and flexible access, based on your workplace requirements.

TYPICAL APPLICATIONS

Factories

Warehouses

Cold areas

Production areas

Facility entrances

Air Curtains

Air curtain solutions for suitable commercial, industrial and facility applications.

PRACTICAL ENTRANCE & FACILITY SOLUTIONS

Air curtains can help create a controlled air barrier across suitable entrances and openings.

We provide air curtain solutions for applicable commercial, industrial and facility requirements.

TYPICAL APPLICATIONS

Factories

Warehouses

Cold areas

Production areas

Facility entrances

Fly Catchers

Fly-control solutions designed for applicable commercial, industrial and workplace environments.

EFFECTIVE FLY-CONTROL SOLUTIONS

Fly catchers can support hygiene and pest-control requirements in suitable commercial and industrial environments.

They can be considered for applications where maintaining a cleaner and more controlled environment is important.

TYPICAL APPLICATIONS

-  Food-related areas
-  Commercial spaces
-  Industrial facilities
-  Kitchens
-  Workplaces

Safety Doors

Safety-focused door solutions for applications requiring controlled access and workplace protection.

SAFETY-FOCUSED ACCESS SOLUTIONS

Safety doors can play an important role in controlled access and workplace protection.

We provide safety door solutions for applicable industrial, commercial and workplace requirements.

KEY POINTS

-  Controlled access
-  Workplace protection
-  Durable construction
-  Suitable for industrial, commercial and workplace use

TYPICAL APPLICATIONS

-  Factories
-  Warehouses
-  Commercial spaces
-  Industrial facilities
-  Workplaces

Welding Rods

Welding consumables suitable for a range of fabrication and industrial requirements.

WELDING CONSUMABLES FOR INDUSTRIAL REQUIREMENTS

Welding rods are essential consumables across fabrication, maintenance and industrial applications.

We provide welding rod solutions for customers based on their application and procurement requirements.

KEY FEATURES

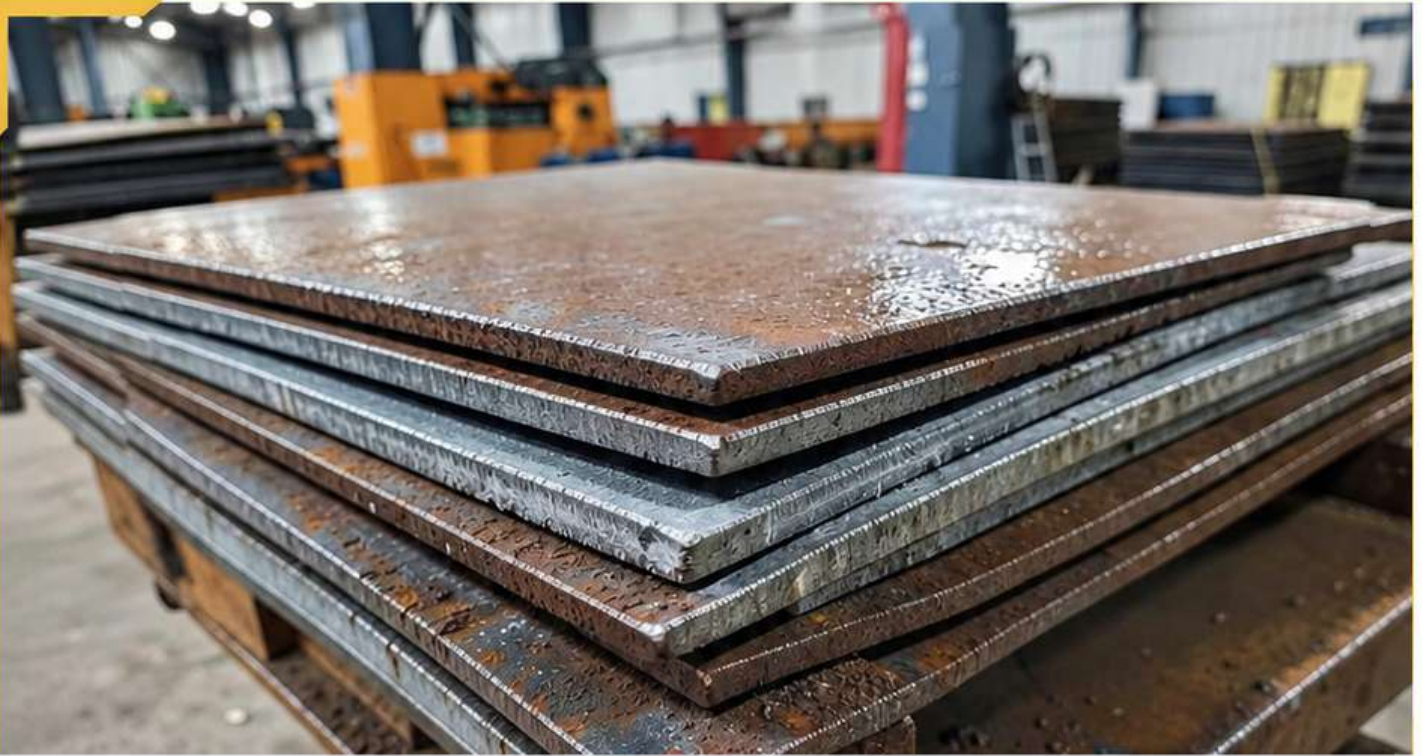

-  Reliable performance
-  Consistent quality
-  Suitable for a range of fabrication and industrial requirements

TYPICAL APPLICATIONS

-  Fabrication
-  Engineering
-  Maintenance
-  Industrial workshops

Wear Plates

Wear-resistant plate solutions for applications where protection against wear and abrasion is required.

PROTECTION AGAINST WEAR & ABRASION

Wear plates are used in applications where surfaces and equipment are exposed to wear and abrasion.

We provide wear plate solutions for suitable industrial requirements based on application and specification.

KEY FEATURES

-  High wear resistance
-  Durable performance
-  Suitable for a range of industrial applications

TYPICAL APPLICATIONS

Mining

Material
handling

Manufacturing

Engineering

Heavy industrial
applications
